

REMARKS

Applicant adds the paragraph above as a precaution. The priorities stated should already be in the application. U.S. Serial No. 60/403,693 filed August 15, 2002 was the priority application for the present PCT application PCT/US2002/031663 as set forth in the PCT Request. At the time of filing the present PCT application, continuation-in-part priority was also claimed in the PCT Request base on the co-pending application PCT/US2002/07738, filed March 15, 2002. Both priorities were also itemized in the application data sheet.

Respectfully submitted,

By: 
Randall T. Erickson, Reg. No. 33,872
